DETAILED ACTION

Claim Objections

Claim 4 is objected to because of the following informalities: The claim discloses "wherein steps (a) and (b) are implemented in the first second processors. The Examiner believes this should read as "the first and second processors". Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 25 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The present claim language discloses "A computer-readable medium having encoded data recorded thereon". The claim merely discloses non-functional descriptive material (e.g., data) recorded on a medium, and thus it is non-statutory subject matter.

Allowable Subject Matter

Claims 1-23 and 26-27 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Aarts et al (US 7,437,299 B2) discloses a coding of stereo signals.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
